

THE KANINO

and other hiking trails on Endelave

All routes start from the information board

- At the start of the pier

THE KANINO approx 21 km

This trail will take you on a beautiful round-trip of the island. You will experience the diverse nature of Endelave including coastline, beaches, forest, wetlands and heath. Moreover, you will have plenty of opportunities to spot one of the many rabbits on Endelave.

THE MINI-KANINO approx 12 km

If 21 km is a bit too much for you, but you still enjoy longer walks, we recommend the Mini-Kanino. This trail takes you from the Endelave town to the northern point of the island – and back. You will experience the beauty of the Danish heath in the natural area “Øvre”. The trail is suitable for cyclists.

YELLOW RABBIT ROUTE approx 5.5 km

Situated at the south-western part of the island, this route leads you to the beach at Søndermølle and past recommendable sights, such as the Medicinal Herb Garden, the aerodrome, the church, the camp site, and the cliff at the southern coast.

RED RABBIT ROUTE approx 3 km

The smallest of the trails may be the cosiest! The trail takes you through Endelave town, by the coast, and near the bird sanctuary Flasken. You will also visit the inn, the local school, the grocery store, and the smokehouse. The red rabbit route is also perfect for a short bike ride.

All routes are clearly waymarked

FYI

There are several places to eat and rest at Endelave
